

Digital tools in education – comments and reflections

KARIN HERMANSSON, IFOUS

SNS SEMINAR OCT 13, 2017

Ifous = Innovation, research and development in schools and preschools

Independent, non-profit, research institute.

Platform for educational providers (municipalities and free schools).

Research & development, focusing on teaching and learning.

Ifous R&D-programme

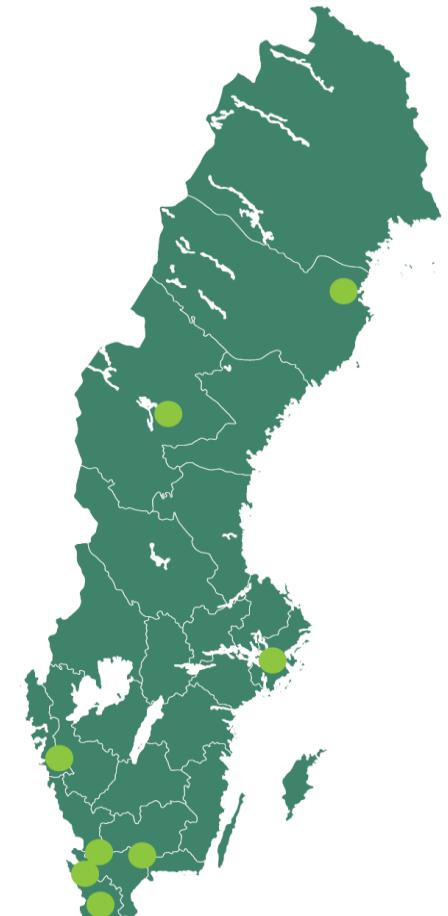

Digitalisation in school 2014 – 2016

Eight municipalities, 19 schools (primary and secondary).

Approx. 100 teachers, plus principals and managers.

- Develop and study teachers' use of ICT
- Support teachers' collaborative learning
- Organisational aspects of digitalisation

The report – my reflections

- Research needed
 - Lack of knowledge & experience; What works, and why?
 - Teachers' choice of ICT resources. Criteria?
 - Assessment

- Teachers are key!
 - Involvement!
 - Relevance!
 - Not only "spread the word"

My reflections, *cont.*

- Good leadership required
 - Structure / organisation for R&D
 - ... and collaborative learning

- Digital competence
 - Which ICT resources supports it?
 - How to measure?

Thank you!
